Dear Customer,

Once again the fall season is upon us. It is time to think about winterizing your boat/vessel. We recommend a program, which not only includes winterization, but also the annual preventive maintenance prescribed by most boat manufacturers. The recommended preventive maintenance not only helps prevent costly repairs, but also makes it so your boat is ready to go in the spring.

No work performed without prior authorization

Please check the item(s) you desire and return this letter by mail, fax, or e-mail with signed authorization.
